## Spark Jump Kawa of Care

The Spark Jump Kawa of Care terms below are an agreement between you, your family and our Spark Jump Partner to ensure you understand your responsibilities in relation to Spark Jump.

### General

- Skinny Customer Terms, Skinny Service Terms and Skinny Broadband Terms and Conditions apply. These terms can be found at [skinny.co.nz/skinny-terms](http://skinny.co.nz/skinny-terms).
- The Spark Jump Offer (the "Offer") is only available to selected families.
- Our Spark Jump Partner has identified you are eligible for the Offer based on information you and/or your child have provided. If for some reason you no longer qualify for the Offer, Spark may reassess your eligibility for it.
- You agree that Spark may share your personal information with our Spark Jump Partner to enable them, and Spark, to contact you and provide Spark Jump services and support to you.
- The Offer is intended to support education and learning within your home.
- If we notice the internet connection is not used for an extended period of time we will make contact with you, either directly or through our Spark Jump Partner, to offer technical help. If the internet connection remains unused we may ask for the modem to be returned to our Spark Jump Partner.

### Modem

- You will be provided with a Skinny Broadband Modem to connect to Spark Jump.
- The Skinny Broadband Modem remains the property of the Spark Foundation and you must return it (including all the parts and information provided) to our Spark Jump Partner on our reasonable request.
- You may not sell, lease, dispose of, lend or otherwise part with possession of, or modify the Skinny Broadband Modem in any way.
- The Skinny Broadband Modem contains a SIM card. You may not use this SIM card in any other device. The SIM card remains the property of the Spark Foundation and must be returned with the Skinny Broadband Modem on request.

### Broadband Data

- 30GB of broadband data is preloaded onto your Skinny account to use for the first 30 days.
- After you have used the initial 30GB it is your responsibility to top-up your Skinny account in order to continue to use the Spark Jump service.
- Broadband data for the Offer can be purchased in 30GB data blocks at \$15 each.
- Any unused data expires after 30 days and does not rollover.
- We strongly recommend you use the broadband data usage meter to monitor your broadband data use. You can access the broadband data usage meter when you login to your Skinny account at [skinny.co.nz](http://skinny.co.nz).

### Confirming you agree to the terms above

**Responsible family member to complete:**

**Print name** \_\_\_\_\_

**Sign name** \_\_\_\_\_

**Contact number** \_\_\_\_\_

**Family address** \_\_\_\_\_

**Family email** \_\_\_\_\_

**School name** \_\_\_\_\_

☐

By ticking this box, I give permission for Spark or the Spark Jump Partner to use photos of my family and write about us to promote Spark Jump for use in the media.
